2013 Marvin
ARCHITECT'S CHALLENGE WINNERS

Annually, Marvin® Windows and Doors sponsors an Architect's Challenge. Architects have an opportunity to showcase their best projects that include Marvin products and compete on a global stage. Entries are reviewed by a panel of FAIA jurors who look for the best examples of solution-driven design, innovation, classic beauty and sustainability. The Architect's Challenge is fast becoming one of the premier showcases in the architectural community. Winning projects in previous years have displayed remarkable creativity in styles both traditional and contemporary, in structures both residential and commercial. Marvin is proud to present the inspired and inspiring winning entries of the 2013 Marvin Architect's Challenge in this booklet.

To view all the 2013 entries as well as past winners please visit: **Marvin.com/inspired**

Marvin's Architect's Challenge winners and their entries represent some of the most impressive work in the industry. Judged on how well they demonstrate solution-driven design, classical beauty, sustainability and innovative use of Marvin® Windows and Doors, these winners show how architects are pushing creative boundaries and performance standards. To be named a winner shows the world that you are among the very best in the business.

We invite you to enter your best work next year in the 2014 Marvin Architect's Challenge.
